

Discipleship Self-evaluation

When you became a Christian you made a decision to follow Jesus, to be His disciple. So how are you doing? Use the checklist below to evaluate the quality of your "follow-ship." Rate each statement on a scale of 1 to 5. One means you are very weak in this area and five means you feel you are extremely strong in this area. After reading each statement and rating yourself, set some goals for improvement. Refer to this paper throughout the coming year as needed to review your goals and then check your "follow-ship" again at the end of the year.

Note: This evaluation is merely a tool to get you thinking about the quality of your discipleship. It is neither scientific nor comprehensive!
